Better than fortnite.. Fairly short game, easy to dip in and out of. Played with the Mrs who loves this sort of game.

We had a good laugh and lots of fun playing. Finished it in one sitting and was left wanting more.

Can't wait for the next chapter.

I would have been happy paying a small price for this game. If the next chapter is longer then I would have no problems paying for that.. i played 8 hours of this in the first day and then had fever dreams and the worst night of sleep possible

10/10 would destroy myself again

be careful. An alright game for what it is, but not for its price. Game is almost 12 years old and the pricetag is too high for a game of that age. Force-feedback is a ♥♥♥♥♥ to set up properly if you play with a wheel. The upsides are the amount of mods on the game, I have about 500 car mods installed worth 50gb and a lot of tracks. Online community is still alive and most of what I've seen are drifting lobbies. Modern simulators, like Assetto Corsa, completely destroy this game in almost every aspect so you're better off buying a newer game if you recently bought a wheel(like I did) and looking for a cheap game to try it out.. I love hidden object games, and this one is no exception, this game is amazing, it's new of it's kind and one of the best in it's genre, an in depth story with amazing visuals, 3D maps and challenging objects to find, be aware though, the controls aren't their finest.. I give you a yes but need more improvement more more and more..... Don't let my playtime fool you. I owned the IOS version day 1 it was released. Changed 2 phones since then, it is the first APP I download every time. Get this game, you won't regret it.

wow this was more fun than I had anticipated

9/10 would make cutlery and fruit explode by punching them again. Simple game where you pick up items in a completely visible dungeon. Skill is knowing how much damage to risk for getting to a certain destination, vs. just going to the next floor and trying for a better layout that is slightly harder.

Good in short bursts.. Not Responding, likeing the game even sent 3 friends a copy each and 1 of them got a free hat apperently. just wish i knew how to get one myself.... Hours of wrist breaking, friendship ending, noscoping fun. seriously though, a really fun game. Very fun and entertaining. I am not very good, but am having fun and am 6th on the leaderboard so that is good? Congrates on making your first game, I am trying to make my own game currently and this has been a big insperation!. I like weed.. Any speed junkie or someone who enjoys besting themselves must have this game.. This is the best Assassins Creed game ever. I much prefer this to later versions.. lag and frame rate drops make it very difficult to play
